

Faith Promise New Road Church of Christ Missions

The New Road Church of Christ started a mission program called "Faith Promise" in October, 2004. This program allowed the members to give the following year what they thought they could give on faith by what God would prosper them. It is not a pledge or signed commitment but what they felt they could give by faith to help spread the word of God to others. This is given in addition of their regular contribution, not to replace or take away from it.
